Hyderabad, India  
linkedin.com/in/-Dhanush-Mudu bmbby-9652606454

Electronics And Communication Student, Software  
Enthusiast, interested in pursuing a position to sharpen  
skills in coding

## SKILLS

Python with DSA

Core Java

SQL

Machine Learning

## EDUCATION

### B.Tech-ECE

JNTUH (Malla Reddy College of  
Engineering and Technology) 2018 - 2022, 6.92/10

Courses

### Intermediate Education

Toppers Junior College

2016 - 2018, 73% Courses

Mathematics ,Physics ,Chemistry.

### 10th Grade-SSC

Gowtham Model School

2015 - 2016, 8.3/10 .

## INTERNSHIPS

Medjacket

ROLE: Software testing

BITZ HR

ROLE: Data engineer

## ACHIEVEMENTS

Four star coder in hacker rank

id:Dhanush Mudumby

Oxford Achiever Certification

Provider:Oxford University

Runner of All INDIA Hackathon

## PROJECTS

mkksdhanush@gmail.com

## Description METHODOLOGY

## OTHER SKILLS Problem-Solving

### PROJECT NAME

Home  
automation, Security  
System

Resume  
Screening using NLP  
Python

Bilt an Home automation  
System using a development  
board embedded with a wifi  
module the system has a  
security system for home .

Built a model for automation  
code for screening the  
resume using regular  
expressions and nltk libraries  
in python.

The Home automation  
system includes solenoid  
door,pir sensor,smoke  
sensor,rain volume  
automation and window  
security system ,the  
development board (Node  
MCU) is connected with  
mobile application for  
monitoring and controlling

The model accepts the  
resume and it is parsed into a  
html file for flexible content  
extraction the by the nltk  
library the features are  
extracted from the resume by  
name entity  
recognition and it is applied  
to the decision tree algorithm  
the details are stored into the  
excel sheet the model  
operates with  
many pdf files and data is  
stored into excel sheets  
based on profile rating .

Interpersonal Skills

Analytical Thinking

Communication Skills

## PERSONAL PROFILE NAME

: M.KRISHNA KIREETI

SREEVATCHA DHANUSH	Built an embedded program for automation of a drone to perform a drone delivery . (this project is designed and selected for the hackathon india)	music according to the picture The embedded c program is developed to automation of drone that includes telemetry,tracking of the drone and capable for sending sms with GSM module GSM,GPS,lidar sensors are used for multiple operations Bluetooth RSSI ,SLAM algorithms are the major advantages for the project.	backend and HTML,CSS are used for the front end . It verifies the email and provide the authentication to the user Nlp,nltk and ml algorithms like decision trees to rate the resume FATHER'S NAME : M. RAMAM MOTHER'S NAME : M.NIRMALA DATE OF BIRTH : 29/11/2000 NATIONALITY : INDIAN LANGUAGES KNOWN : ENGLISH, TELUGU, HINDI
Drone Automation			
Sonification website using django	Website helps user to upload the resume and the algorithm is built to rate resume ,it also have sonification algorithm to generate random and unique	django,SQL are used for the
