- **Technologies**- ASP.NET MVC, Web API, jQuery, Bootstrap
- **Description**- eGenerator lets you create customer-tailored Service Briefs swiftly for the solution being sold.

Assessment Tool Portal (ATP)

- **Role**- Developer
- **Technologies**- ASP.NET MVC, Web API, jQuery, Bootstrap, XSLT.
- **Description**- ATP automates the data collection and initiates deliverable preparation process for professional Services.

OTHER PROJECTS

Portfolio Utility

We created a utility which automated the weekly portfolio creation task and provided a well formatted document using TFS service.

Test Manager Suite

We created a test manager suite using Microsoft Test Manager with ASP.NET and Selenium with VSTS to automate the regression testing.
