SUMMARY

- Highly self motivated, hard working, and out of box thinking individual with strong passion towards Programming. I have 8 years of experience in Microsoft technologies. I am a very proficient at grasping new technical concepts quickly and utilizing the same in a productive manner.
- Having around 8 years of experience in software design, analysis, development, testing and implementation of web and client server applications using Microsoft Technologies.
  - Extensive experience in .NET using C#, ASP.NET MVC, Micro Services, Web API, Entity Framework and in Dot Net Core 2.0/3.0/5.
  - 1+ years of experience in Azure.
  - Exposure to application development in Agile Methodology.
  - Exposure to driving various sprint activities like Sprint Planning, Daily Scrum, Mid Sprint Review, Retrospective. Experience working with development in Visual Studio.
  - Experience working with Unit Testing using MsTest and NUnit.
  - Prioritized and managed multiple tasks across multiple projects, under tight deadlines. Having good exposure in Object Oriented programming design and implementation.
  - Having hands on experience in Angular 2, 4, 7 and React. Implemented functionality in JavaScript and JQuery.
  - Hands on Sql Server Database design, Database Maintenance, developing Queries, Stored procedures and triggers using sql server.
  - Experience working with Jenkins continuous integrations server setup.
  - Capable of working independently, multi-tasking, meeting deadlines, and a good team player

WORK EXPERIENCE

Senior Software Engineer

Yash Technologies  
📅 Dec **2018** - Present -  
  
Pune

Project 1: Service Link Multi Tenancy  
Service Link is the premier national mortgage services company that has been providing loan transaction services to the mortgage industry for many years. Service Link delivers home valuation, title and closing, and flood services to mortgage originators; end-to-end subservicing to mortgage servicers; and default valuation, default and loss mitigation title and closing, field services and liquidation solutions that support servicer loss mitigation efforts and the foreclosure process. Service Link is seeking to engage a partner for development to re-write of existing legacy application (WCF, jQuery, single tenant) to new application which will be multi-tenant and built using MS Azure and APIs.

Project 2: Anglo American P3 A1  
This is an application for graphical representation of the data which we are getting from the client. This is a mining domain application. We are getting data on hourly basis for particular graph according to the Chile time zone. After getting data store in Data Lake we are creating stored procedures and API for particular graphs. The graphs are separated by a tag value. After the API creating the UI team representing the data in graphical manner in the front end application using D3 JS.

Senior Software Engineer

Xoriant Solutions  
📅 Feb **2016** - Mar **2017**  
  
Pune

Project 3: Array Health  
Together, the companies will make it possible for insurers, employers, state governments and benefits brokers to deliver a superior consumer experience through a single, scalable ecommerce solution that supports group, individual and Medicare health enrollment. Array online enrollment solution provides a modern approach to processing enrollments. The project is in healthcare domain and my role for this project is to develop code in C#, Asp.Net, MVC, Web.API, Angular2, Entity Framework and develop database in SQL Server 2012.

Project 4: Safety Chain  
As the leading provider of food safety & quality management solutions in the marketplace, SafetyChain is specifically designed to help FSQA teams optimize performance across their entire operation. SafetyChain's cloud-based solutions and mobile apps help automate program execution and deliver real-time data intelligence, as well as, provide a centralized records repository – all essential components to optimizing day-to-day operations and drive continuous improvement in FSQA operations. My role for this project was migrating code from mvc to Entity Framework

Senior Software Engineer

Symphony Teleca  
📅 Mar **2015** - Aug **2015**  
  
Pune

Software Engineer

Syntel Limited  
📅 Apr **2013** - Mar **2015**  
  
Pune

EDUCATION

Master of Computer Application (MCA)

Nagpur University  
📅 Aug **2005** - Aug **2008**  
  
Nagpur

AREAS OF EXPERTISE

- C#
- SQL Server
- .Net Core
- .Net MVC
- Angular
- React
- Azure
- Web API
- Asp.Net
