PROJECTS

- **DISPLAY ACCOUNT DETAILS: (LWC)**

The leadership of an organization realizes they need a way to display Account data with their Contacts in an app that lets Sales reps see their Accounts more conveniently and allows them to make the changes to them efficiently. I achieved this requirement with the help of lightning web component (LWC).

- **QUIZ APP: (LWC)**

The quiz app's major goal is to show the quiz's questions and answers on the app page so that the user may choose the responses and finish the test. Using the lightning web component, I was able to fulfil this requirement (LWC).

- **SERVICE CLOUD**

In this service cloud project, I wish to preserve some service cloud capability as a customer care professional, such as automating case assignment, Enable Web-to-Case, Web Chat, Create an Assignment Rule, Email-to-Case Services and implement some functionality for avoiding duplicate case creation from customer email.
