WORK EXPERIENCE

Feb 2021 - Present

Biztransights Solutions LLP.

Working as a Full stack Web-Developer, have been working on technologies including MERN stack, AWS and Azure cloud services. Some major projects are as follows.

- 1) Single handedly built the front end of a Remote patient monitoring system connected to patient terminal over Socket.io with ReactJS.
- 2) A Call center platform powered by AWS connect that lets customer order and make reservation for medicinal herbs.
- 3) An online product demonstration platform with live and recorded adaptive video streaming over Azure Media Services.

August 2019-October 2020

Roambee Services Pvt. Ltd.

Working as a Web-Developer in the Marketing Team, my major role is implementing Marketing automation tools and maintaining the company website. The automation tools involve email scheduler, dashboards and report generation. Have been working on technologies including NodeJs, ReactJS, PHP MySQL, HTML and CSS.

May 2018-July 2019

Dekko Digital Pvt. Ltd.

Worked as an Android and Web-Developer, designed and developed multiple applications, some of which are as follows.

1) 10on10 (Web Application)

Developed an e-commerce web application in React JS ,Node JS and MySQL which allows parents to order educational products on a subscription basis.

2) RouteJoot (Android Application)

Worked on enhancement of the application with a gallery feature enabling users to upload pictures of their bike-rides with like and comment features.

April 2016 - April 2018

AK Tech Studios LLP

Worked as a tech consultant, designed and developed engineering projects for grad students. The projects were based on technologies including Android and Web applications, Embedded Systems (Arduino and AVR)

TECHNICAL SKILLS

- Good understanding of Algorithms and Data structures.
- Web application and websites development (Node JS, React JS, HTML, Javascript, CSS, JSON, MySQL).
- AWS (EC2, S3, CodeBuild, CodePipeline, Route 53, Cloudfront, Serverless with Lambda, API Gateway).
- Docker.
- Hands on experience in Windows application development (Electron JS, Java).
