Mb No: 9325896903

OBJECTIVE

I am an astute Python Developer professional with more than 2 Year of functional experience in Python, Django and MySQL. I have expertise in Web scrapping data from various sources, deriving useful insights from data, developing and deploying highly scalable Django module.

PROFILE :

- A detail oriented professional experience in **Python, Django and Web Scrapping** with expertise in **Rest APIs and Web Scrapping** concepts
- Strong Python programming experience in **List , String, Dictionary, regular expression**
- Good command on python language **structured query languages**. constructs such as **File handling ,Oops concepts, Iterators, Generator**
- Development of **REST APIs in Python**
- Ability to develop a **front end UI with Django and Python**
- Implementation of **Regular Expression** techniques with the help of Web Scrapping
- Experience in working with **Pandas, Numpy, Web Scrapping**
- Experience in working with and transforming **large data set**.
- Discuss **technical and design issues** with other developer, managers, users and customers whenever necessary to **achieve best solution**
- Analyze and **solve performance issues** in real time

Technical Expertise

Machine Learning and Data Science:

Python	Pandas, Numpy, Object Oriented Programming, Data Structures, Web Scrapping, List, Tuples, Dictionary, Set,
Framework	Django
Database	MySQL

❖ Supporting Technologies:

- **Programming Languages** : Python, HTML5, CSS3
- **Cloud Platforms/Services** : AWS
- **Web stack** : Django
- **DevOps** : Git
- **Operating Systems** : Windows , Linux
- **Database** : SQL

Current Employer:

Working as Python Developer at iSash IT Solutions, Pune from April 2021 to **till date**

Designation: **Python Developer**

Project in Company:

Project Title: Loan default Prediction

Environment: Python, SQL, HTML, CSS, Flask, AWS.

Tools: Statistics, Empirical Data Analysis, Machine Learning or Natural Language Processing

Team Size: 6

Description:

With the enhancement in the banking sector lots of people are applying for bank loans but the bank has its limited assets which it has to grant to limited people only. Banks gives money to people in exchange for the promise of repayment. Some will default on the loans, being unable to repay them for some reason. The main objective was to predict which people will ability to repay loan amount on their loans based on their financial information.

Responsibilities:

- **Collected, analyzed and interpreted raw data** from various data sources.
- Work closely with various teams across the company **to identify and solve business challenges** utilizing large structured, semi structured, and unstructured data in a distributed processing environment.
- Search for ways to **get new data sources** and assess their accuracy
- **Assess the effectiveness** of new data sources and **data gathering techniques**.
- **Coordinate** with different **functional teams** to implement models and monitor outcomes.
- Use **Web Scrapping and Regular expression** for data extraction from various formats of data.
- Use **Flask Framework** to create Rest APIS for prediction
- Testing APIS using Postman Tools
- **Analyzed data** to discover **trends and patterns**.
- **Coordinate** with different **functional teams** to implement models and monitor outcomes.

FIELD OF INTEREST:

- Python.
- Django.
- MySQL.

STRENGTHS:

- Self-motivated to succeed & to learn the new things.
- Able to work in Team
- Positive approach and capability to learn new things
- Comprehensive problem solving abilities.

Personal Profile:

Name : Harshal k. Patil
Father : Kashinath Jangesh Patil
Date of Birth : 11/08/1996
Gender : male
Marital Status : unmarried
Nationality : Indian,
Languages Known : English, Hindi, & Marathi.

Permanent Address:
A/p. : at alkhed post
padalda.
Tal : Shahada
Dist. : Nandurbar
State : Maharashtra.
Cell No. : 9325896903

Date:
6/08/2022
Place:
Shahada.
