

## Career Objective

---

To obtain a position of Software Developer in a reputed organization and be involved in a challenging project, where I can use all my knowledge, functional experience, and technical skills in a better way to benefit the organization.

## Professional Summary

---

- **Having 5 years** of experience as software developer.
- Developed user interface (UI) applications and web applications using C#, MVC, HTML, HTML5, CSS, CSS 3, Bootstrap, JavaScript, J-Query, Angular JS/7, Node JS, React JS, Express JS, NPM.
- Knowledge of SQL Server, MongoDB, MongoDB Compass Tool, RabbitMQ Interface.
- Used Node Package Manager (NPM) to manage or install the Node-JS module like Express.js and Mongoose.
- Knowledge in Implementing Mongo DB CRUD (Create Read Update Delete) Operations by using Mongoose Library in Node JS Including Angular JS.
- Comfortable working in Research, Design and Development.
- Attended daily stand up meetings (SCRUM), Estimation meetings and Requirement review meetings to analyze.
- Involved in Requirement analysis, preparing software design document, development, debugging of operations management module in ERP projects.

## Areas of Expertise

---

- **Programming Languages:** C, C++, C#, ASP.NET, ADO.NET, MVC, Node JS, React JS, Angular JS/7, Express JS, Typescript.
- **Database:** SQL Server, Mongo DB
- **Web Technologies:** HTML, HTML5, CSS, CSS 3, Bootstrap, JavaScript, J-Query.

## Professional Experience

---

- **CliniVantage Healthcare Technologies Pvt. Ltd.**  
Working as Software Developer **January 2018 to Present**

## Projects Synopsis

---

<b>Project Title</b>	<b>: Hospital Information System (HIS)</b>
<b>Industry</b>	<b>: HealthCare</b>
<b>Role</b>	<b>: Software Developer</b>
<b>Project Duration</b>	<b>: Nov 2020 to till now</b>
<b>Technologies</b>	<b>: Angular 7, HTML, CSS, JavaScript, jQuery, Bootstrap.</b>

**Key Responsibilities:**

- Implemented web application using Java as a backend and angular JS as front-end technology.
- Responsible for coding and developments using Angular 7, HTML, CSS, JavaScript, JQuery, and Bootstrap.
- Developing UI designing and Co-ordination with Java developer for API integration.
- Worked on Pharmacy module and handled the business process like Purchase request, Purchase order, GRN, Physical Inspection, Consignment, Store/Inventory, Ip/Op Pharmacy, Narcotic store, Asset, opening Balance.
- Day to day taking care of high, medium, and low priority Support issues.
- Analysing the errors, searching for route cause and fix the issue.

**Project Title** : EMR  
**Industry** : HealthCare  
**Role** : Software Developer  
**Project Duration** : May 2020 to Oct 2020  
**Technologies** : React Js, Node Js, HTML, CSS, JavaScript, JQuery, Bootstrap.

**Key Responsibilities:**

- We have used Ant Design for evaluating design quality.
- We have shown some graphical representations like Bar graph, Pie chart, Histograms, line graph for Collection, Revenue, Patient count, Stock etc.
- Analysing the errors, searching for route cause and fix the issue.
- Worked on some reports like radiology reports, pathology reports, laboratory reports and discharge summary
- Day to day taking care of high, medium, and low priority Support issues.

**Project Title** : Electronic Medical Record (EMR)  
**Industry** : HealthCare  
**Role** : Software Developer  
**Project Duration** : May 2019 to April 2020  
**Technologies** : Angular Js, Node Js, Express Js, Mongo DB, Mongo DB Compass Tool.

**Key Responsibilities:**

- Implemented web application using MEAN technologies (Mongo DB, Express Js, Angular Js, Node Js) along with HTML, CSS, JavaScript, Bootstrap and SQL Server.)
- I have worked on Template Engine Module in that design templates.
- Worked on enhancement and API Integration for third party and deployment of EMR on EC2 server.
- Integrated two applications using RabbitMQ Interface.
- Solved various issues in ordering, vitals, pharmacy modules etc.
- Day to day taking care of high, medium, and low priority Support issues.
- Analysing the errors, searching for route cause.

**Project Title** : KeyDento Pvt. Ltd.  
**Industry** : HealthCare  
**Role** : Software Developer  
**Project Duration** : Nov 2018 to April 2019  
**Technologies** : C#, MVC, HTML, CSS, JavaScript, Bootstrap and SQL Server

**Key Responsibilities:**

- Implemented web application using Dot Net technologies (C#, MVC) along with HTML, CSS, JavaScript, Bootstrap and SQL Server.
- I have worked on most of modules like login, registration, appointment, patient, staff, BackOffice etc.
- Day to day taking care of high, medium, and low priority Support issues.
- Analysing the errors, searching for route cause.

**Project Title** : Zapbook Product  
**Industry** : Healthcare  
**Role** : Software Developer  
**Project Duration** : May 2018 to Oct 2018  
**Technologies** : C#, MVC, HTML, CSS, JavaScript, Bootstrap and SQL Server

**Key Responsibilities:**

- Implemented web application using Dot Net technologies (C#, MVC) along with HTML, CSS, JavaScript, Bootstrap and SQL Server.
- Worked on Registration and login module with Authentication and Authorization.
- Major & minor changes in existing Reports like appointment, Financial and treatment.
- Worked on Expenses module.
- Created Certificates of medical and fitness.
- Day to day taking care of high, medium, and low priority Support issues.
- Analysing the errors, searching for route cause.

**Project Title** : Fabme Product  
**Industry** : Saloon  
**Role** : Software Developer  
**Project Duration** : March 2018 to April 2018  
**Technologies** : C#, MVC, HTML, CSS, JavaScript, Bootstrap and SQL Server

**Key Responsibilities:**

- Implemented web application using Dot Net technologies (C#, MVC) along with HTML, CSS, JavaScript, Bootstrap and SQL Server.
- Developed complete dashboard which includes multiple sections like today's appointments, revenue, daily stock and recent services.
- Developed complete stock module which includes stock in, stock out, main stock and stock report.
- Worked Employee Attendance Module.
- Day to day taking care of high, medium, and low priority Support issues.
- Analysing the errors, searching for route cause.

**Project Title** : Eduio Product  
**Industry** : Education  
**Role** : Software Developer  
**Project Duration** : Jan 2018 to Feb 2018  
**Technologies** : C#, MVC, HTML, CSS, JavaScript, Bootstrap and SQL Server

**Key Responsibilities:**

- Implemented web application using Dot Net technologies (C#, MVC) along with HTML, CSS, JavaScript, Bootstrap and SQL Server.
- I have worked on activities, events, tips Module.
- Day to day taking care of high, medium, and low priority Support issues.
- Analysing the errors, searching for route cause.

---

### Training, Certifications & Affiliations

---

Having Certification Course in Dot Net Technology with “A” Grade from Profound Edutech Pvt. Ltd. Pune.

### Higher Education

---

- Bachelor of Engineering in (Information Technology) from Pune University with 61.66 % in 2016.
- Polytechnic (Diploma in Information Technology) from MSBTE with 64.81 % in 2013.
- SSC (10<sup>th</sup>) from Maharashtra State Board (Latur Division) with 78.00 % in 2010.

### Other Relevant Details

---

Gender : Female  
Date of Birth : 10<sup>th</sup> June 1994  
Languages Proficiency : English, Hindi, Marathi,  
Permanent Address : ‘Sai- Shree’, Sharda Nagar, Vita Road, at post. Sonpeth, Dist. Parbhani,  
Maharashtra, India, PIN- 431516

I hereby declare that the information mentioned above is true to the best of my knowledge.
