Bachelor of Technology,
Computer Science & Engineering
Aug 2016 – Aug 2020
Lovely Professional University,
Jalandhar, Punjab

WORK EXPERIENCE

- MIMO Technologies Pvt Ltd, Noida 127** Nov 2022–Present
- Upgraded Android app from Android 10 to Android 12.
 - Added Firebase Crashlytics in app to identify cause of app crashes and resolved the errors.
 - Improved performance of app by optimizing very long forms and decreasing memory usage.
- Verts Services India Pvt Ltd, Noida 63** Jan 2020–Nov 2022
- Proposed improvements in UI Design approach and introduced modern UI components to the company.
 - Developed, revitalized and revamped new and existing native **Android apps**, multi-platform **Flutter apps**, and cross-platform **EmberJS-Cordova apps**.

PROJECTS

SportTech (Flutter)

- Developed app to help sportspersons connect with coach and prepare for sports competitions using Dart.
- Designed UI of app using Flutter and connected to serverless AWS backend and AWS Amplify.
- Implemented Push Notifications using Firebase Cloud Messaging (FCM).
- Added Camera, Video, and Video Player libraries to achieve photo and video sharing in the app.

Inventory Management App (Java)

- Revitalized existing native Android Inventory Management app built with Java.
- Debugged the app, improved authentication, sessions management, file management & bar code scanner to make it bug free.
- Migrated project to AndroidX for efficient management of support libraries.

Manufacturing ERP App (EmberJS-Cordova)

- Updated existing Manufacturing ERP app built with EmberJS and Cordova from Android 8 to Android 11.
- Debugged, added more UI components and integrated with new APIs.

Visitor Management (Flutter)

- Developed UI of the app in Flutter and connected Odoo backend using JSON-RPC protocol.
- Presented analytical data in app using pie chart to help the user take business decisions.
- Implemented local storage in app using shared preferences.

COURSES & CERTIFICATIONS

- Java For Android (Coursera)
- Android App Components- Intents, Activities, and Broadcast Receivers (Coursera)
- Android App Components - Services, Local IPC, and Content Providers (Coursera)
- Engineering Maintainable Android Apps (Coursera)
