SKILLS

React

JavaScript

Redux

MERN Stack

Node/Express

Database Modules

PLATFORM & TOOLS

Software/Developer Tools/API Platform/OS

- Git,Github, Visual studio code, POSTMAN, Expo CLI
 - MAC OS /WINDOWS OPERATING SYSTEM
 - Windows PowerPoint, Excel, Outlook, Word
 - Hands-on with Both web and mobile application using React & React native
 - Proficient with the management of Database like MONGODB ,ATLAS
 - Basic knowledge of SQL Database
 - Proficient knowledge of HTML, CSS, ES6, JAVASCRIPT,React,Redux,redux-toolkit,JWT,Webpack,Node,EXPRES,mongodb,RESTful Apis
 - Work on Database ODM like Mongoose,sequelize

Framework/Environment/API

Platform/Database

- Node js, Express Framework, POSTMAN, React-Native,

UI Library

- Bootstrap, materialUI, Reactstrap Tailwind,

EDUCATION

Master in computer application (2017-2020)

Full Professional Proficiency

GITA Autonomous College affiliated to BPUT

Technical Profile

Technical Skills: HTML,CSS,JavaScript,React, Redux,Webpack,ES6,Next.js Node.js, Express, Mongodb

Soft Skills: Communication, Leadership, Teamwork, Problem-Solving, Critical Thinking

Additional Language: C,C++,PYTHON,JAVA

Achievements:

➤ Certifications-

- internships Program-Certificate of Completion Oracle database

PROJECTS

Gmail plugin that will auto generate AI based replies using OpenAI API

In this project basically it's a extension which will be installed on chrome or any browser

After installing the extension ,that is active when you Reply to or create a new email

This plugin is designed to autocomplete emails also provide other features for users when it is triggered (think of this like Github copilot, but for email. It uses GPT3 to write the email for you

which is made on jquery and javascript

Spiritual Social media and Ecommerce app

This project is related to social media platform where all users can consume all spiritual content like videos songs posts and shop as well at Ecommerce site and in other hands

Manging all the content multimedia files and keeping all the records of users content stats in dashboard which is Made using technologies react and redux for data manipulation along with its API handled by Node and mongodb followed by MVC pattern.

Language Academy Website Development

This project is related to give preparation and training exams for all the students

Doctegrity App

This project is related to provide instant access to doctors and keep the records of patient's disease symptoms by the format of videos and verbal and through documents

PERSONAL PROJECTS

Real time News site app (react)

Instagram clone (react,contextapi,node,mongodb,RESTful apis)

Ecommerce app (react,redux ,context usereducer)

Real time weather api (react)

Google keep app clone(react)
