Work Experience

Full Stack Developer | Micro Technologies

September 2022 - Present

- Designed and developed a user-friendly and responsive website, as well as APIs using Node.js and Express. Utilised databases such as MySQL and MongoDB for storing and retrieving data.
- Fixed bugs from existing websites and implemented enhancement that significantly improved web functionality and speed.

Software Engineer | Paktolus Solutions

October 2020 - August 2022

- Designing and building UI using Figma, React Js, and Next Js. As well as APIs using Express.
- Collaborating with cross-functional teams, including designers, developers, and project managers, to ensure the quality and success of projects.

Projects

[Gullar.in](#)

November 2022 - January 2023

Tech Stack: **React Js, Express Js, Prisma, PostgreSQL, Firebase Storage, Node Mailer and Razorpay**

Description: This is E-commerce application for single vendor. It has Admin Dashboard and Interface for user. They can manage product and Order. User can buy product and manage cart, see history of orders.

[Ask me anything](#)

December 2022

Tech Stack: **React Js, Node Js and Open-AI Api**

Description: This is based on **ChatGPT3** and **DALL-E-2**, I used their api to integrate in my application. Now, Here you can search as text and Image, This will give you prefect answer.

[URL shortlink](#)

September 2022

Tech Stack: **Next Js, Prisma and Planet Scale**

Description: An URL shortener is a web-app that reduces the length of your URL. The idea is to minimise the web page address into something that's easier to access.

[Quiz App](#)
